• Phase II you will come to Cumming, GA to spend the day in class doing all of the hands on skills and practicing with the manikins and perfecting your skills in learning how to teach the curriculum. Phase III– Class Instructor Monitoring

• Phase III is where you will conduct the class that you will be teaching while I monitor/observe portions of the class to ensure you are prepared to be teaching out on your own.

- Invite friends or family (up to 4 students) to take your “class”. If they require a certification in this area they will pay a 12.00 card fee to take your course.
- You will use all of my equipment/manikins, etc. so you do not have to purchase your equipment just yet.
- If you have the class where you live if the travel is over 25 miles 1 way for the Instructor Trainer’s home base then a \$50.00 fee is charged for outside the area fees. You are more than welcome to have the class in Cumming at our office where we conduct our classes so you would not have to incur any more fees.
- This allows you to be able to get the feel of teaching the class and to get the feedback and comments that are much needed when first starting to teach these classes. Of course I am always available after class whenever needed too. Once you have completed and passed this phase, then you will be able to receive your final Instructor card.
